

**RECEPTION FOR JULIO VILANCULOS  
DIRECTOR OF MISSION AND THEOLOGY  
CAMBINE, MOZAMBIQUE  
Possible Lenten Mission Project for 2012**

On Saturday, July 23 AUMC hosted a reception for our guest, Julio Vilanculos, Director of Mission and Theology at the Cambine Mission Center, Mozambique. Julio was here for a joint meeting of the International Association of Methodist-Related Schools, Colleges and Universities (IAMSCU), and the National Association of Schools and Colleges of the United Methodist Church (NASCUM). At the reception Julio shared with us the vision for Cambine, next steps toward creating a sustainable community and about the work the Annandale Team was able to accomplish this past May. Julio also participated in our worship service July 24 and gave a wonderful presentation during the Sunday School hour.

Through our visit to Cambine and Julio's visit here, we have learned that the top priority for the Cambine compound is to build a men's dormitory for the seminary students. They have recently completed one for the women students. We were provided copies of the plans and estimated costs. They already have commitment for half of the costs from the German Methodist Church, which are very active supporters of the Cambine Mission station and its many ministries. We are currently considering inclusion of this project in our 2012 Lenten Mission Project. If you would like to find out more about the project, Cambine or its staff, please contact Molly Wilmarth or Erin McKenney. And please keep Julio and his team in your prayers!
